The truth about stories is that's all we are.

King, 2003 p. 2

Stories are powerful and connect us to our history, our spaces, to one another, and to ourselves. They are medicine, meant to be shared, and provide a grounded telling of experiences that introduce new ways of knowing and being, including navigating and bringing balance back to landscapes.

DEAR NASPA COLLEAGUES AND FRIENDS,

On behalf of the NASPA Board of Directors and the 2024 Conference Leadership Committee (CLC), we welcome you to the 2024 NASPA Annual Conference in Seattle, Washington. The 2024 CLC wishes to honor the story of our profession, our talents, and our place as we gather together at this time. As one of the only major U.S. cities named for an Indigenous Leader - Chief Si'ahl, of both the Suquamish and Duwamish Indigenous peoples of what is now known as Washington state, it is only fitting that our NASPA family's 106th homecoming is centering storytelling as a student affairs sensibility.

With nearly 700 sessions with over 1,600 presenters, the conference will provide a plethora of opportunities to explore the three focus areas that offer the foundation for learning and professional development this year. The key components of our event this year include:

- ♦ **Navigating the Opportunities in Uncertainty** - ensuring that all career levels can take the current uncertainty and turn it into innovation and opportunity
- ♦ **Care in Chaos** - creating the conditions for care in these turbulent times for ourselves, our colleagues, our students, and our communities, and ultimately, our profession
- ♦ **Justice, Equity, Diversity, Inclusion, and Belonging** - honoring our narrative to demonstrate how student affairs work is integral and fundamental to engaging differences, open expression, and belonging.

During the conference, we encourage you to explore diverse perspectives and learn new ways of navigating the challenging times in which we serve. And, at the same time, we hope that you spend the time reconnecting with those who have been part of your personal and professional story. This year, the CLC has curated various lounge spaces for First-time Attendees, our LGBTQIA2s+ community, and others to network and connect.

While you are in Seattle, we encourage you to visit the area, shop from local BIPOC, LGBTQIA2s+, women, and and veteran-owned vendors, and take in the beautiful landscapes that are unique to the Emerald City. We welcome you to the conference and the much needed time with your NASPA family. It is now, more than ever, that we need each other to remember our joy and passion for this profession and celebrate those who have dedicated their careers to the service of students.

INDIGENOUS ENGAGEMENT

IF YOU ARE JOINING THE 2024 NASPA ANNUAL CONFERENCE IN PERSON, your presence in this place, named for Chief Si'ahl of the Suquamish and Duwamish Tribes and now known as Seattle, should be coupled with the labor and context of how you came to occupy this place, and your relationship with and to this land. We encourage you to situate yourself in this labor, and to know that who you are, in relation to where you are, is a vital cognizance grounded in humility and empathy.

The language above has been developed by members of past Conference Leadership Committee Indigenous Engagement Work Groups.

Tribal Communities in the State of Washington

- ◆ Learn about the [Indigenous Tribes of Seattle and Washington](#) with this list of resources from the American Library Association.

Humankind has not woven the web of life. We are but one thread within it. Whatever we do to the web, we do to ourselves. All things are bound together. All things connect."

Stephanie Waterman (Onondaga, Turtle Clan), Associate Professor, Department of Leadership, Higher and Adult Education, University of Toronto

Stories provide us with perspectives of possibility; in other words, what is and what can be. As Native Peoples, we not only gain knowledge but garner strength when we devote time to constructing personal and communal meaning-making through storytelling. Accordingly, stories enhance our sensibilities about peoples, places, and communities. To appreciate the educational practice of storytelling, we believe that it is necessary to view storytelling as an act of "rhetorical sovereignty" (Lyons, 2000). Rhetorical sovereignty supports the creation of student development experiences at the University of Illinois Urbana Champaign, the University of Hawai'i, Mānoa, and the University of New Mexico, in that learning opportunities are purposeful, emancipatory and allows Native students to have a say in how they represent their campus experiences.

This Extended Learning Session centers on how Native higher education student communities at three institutions explore and voice the centrality of rhetorical sovereignty in conceptualizing their roles and responsibilities, thereby transforming how they locate themselves within their institutions. Following student presentations, Drs. Karen Francis-Begay (Diné) and Stephanie Waterman (Onondaga, Turtle Clan) will offer critical reflections on the important role of stories in relation to Native student success. The session will conclude with an audience engagement activity.

Radical Reflection: Minoritized Colleagues Claiming Space and Rewriting Their Story in the Academy

Tuesday, March 12, 8:30 - 10:00 a.m. | Summit, Terrace Suite

Camaron Miyamoto, he/him, Director, LGBTQ+ Center, University of Hawai'i at Mānoa

Teresa Clouch, she/her, Associate President for Student Life, Dean of Students, University Diversity Officer, Washburn University

Leaning on Queer Narrative Theory and Pláticas, this Extended Learning Session will provide space to share stories and strategize responses to the prevalence of anti-queer, anti-trans, and anti-DEI rhetoric and legislation happening nationally. By gaining access to and reimagining personal history when that history has been erased or rendered invisible across all sectors of education, SA Pros can build capacity for this work and help lead the way in higher education to address the realities of injustice and inequity.

CERTIFICATION FOR STUDENT AFFAIRS EDUCATORS

STUDENT AFFAIRS EDUCATOR CERTIFICATION

NASPA is an approved provider of Student Affairs Educator Certification credits through the Higher Education Consortium for Student Affairs Certification. Student Affairs Certification includes seven credentials—the core student affairs educator certification and six specialty area certifications. The core certification serves as an important, independent credential as well as a required prerequisite for each specialty certification. Certification is designed to benefit individual educators at the mid-level and above, higher education institutions, and the larger student affairs and services profession.

Sessions at the NASPA Annual Conference eligible for certification hours will be indicated by the corresponding certification acronym as outlined below:

Core CE Credits

Core Student Affairs Educator Certification credits are directly related to the domains of the Core Student Affairs Educator Certification.

Social Justice and Inclusion (SJI) CE Credits

Social Justice and Inclusion (SJI) CE credits focused on the process, outcomes, and dynamic influence of individual and institutional awareness and action to foster inclusion, create equity, and ensure access grounded in the understanding of systems of oppression and privilege and how they are perpetuated in our practice and communities. SJI CE credits count toward the Core certification (CSAEd™) maintenance.

Specialty CE Credits

These are CE credits focus on the domains of Student Affairs Educator Certification as they particularly pertain to one of the six specialty certification functional areas. There are six types of specialty CE credits corresponding to the six specialty certifications:

CENTER FOR FIRST-GENERATION STUDENT SUCCESS

AN INITIATIVE OF NASPA AND THE SLIDER FOUNDATION

Empowering,
connecting, and
inspiring those who
want first-generation
students to thrive in
college—and beyond.

WHAT WE DO

PROGRAMS AND SERVICES

■ **First Scholars Network:**

A national scaling model consisting of four phases: Network Member, First-gen Forward, First Scholars, and Champion Campus, that allows institutions of higher education to advance outcomes for first-generation students by establishing communities of practice, gaining knowledge of resources, and building peer networks. More than 300 institutions of higher education are engaged across the Network and we have a commitment of serving over 700 institutions over the next five years.

- **CatalystFIRST:** a one-stop resource for institutions or organizations to find first-generation student success experts for events or speaking engagements.

JOURNAL AND RESEARCH

The Center promotes research that examines supports and barriers for first-generation students and institutional approaches to first-generation programming. We are home to the *Journal of First-generation Student Success*, the first academic peer-reviewed journal with a specific focus on first-generation student experiences and outcomes. We also produce our own original research, including two acclaimed landscape studies and fact sheets with national data about first-generation students.

ENGAGEMENT

- Our **Center Online Learning** offerings and virtual and in-person conferences and events offer limitless opportunities to engage. Signature events include:

- **First-Generation College Celebration:** co-hosted with the Council for Opportunity in Education, this annual November event reaches an audience of millions and brings together college and university campuses from around the nation to celebrate and recognize their first-generation students.

- **First-generation Student Success Conference:** each year, hundreds of scholars, leaders, philanthropic partners, and advocates who care about first-generation student success come together to learn, network, and share experiences from the field.

Introducing the Program Review Collaborative

The Program Review Collaborative (PRC) offers external reviews for departments/programs often positioned within a student affairs division. Review services are not “one size fits all,” rather they account for an institution’s mission, culture, identity, and history in order to utilize processes and generate outcomes that best serve one’s respective department/unit/functional area.

PRC reviews are designed to be applicable to departments, programs, and services regardless of institutional mission, size, function, organization, and budget. PRC services are not a form of accreditation process or a set of standards. External reviews provide peer-to-peer assistance from seasoned student affairs officers and subject matter experts which results in meaningful insight and valuable recommendations.
